EDUCATION

Vellore Institute of Technology

Bachelor of Technology (B.Tech.) in Computer Science

CGPA: 8.47

Bhopal, Madhya Pradesh

Expected Graduation: May 2027

EXPERIENCE

ServiceNow Virtual Intern

2026

ServiceNow, SmartBridge & AICTE — Remote, Virtual Internship

- Evaluated and completed an intensive platform curriculum, earning a ServiceNow Micro Certification while gaining hands-on exposure to Agentic AI, workflow automation via Flows, and the Automated Test Framework (ATF).

SKILLS SUMMARY

Languages: JavaScript, C++, Python, HTML, CSS

Frameworks & Libraries: React.js, Node.js, Express.js, Tailwind CSS, Next.js, Flask

AI & Machine Learning: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, OpenCV, MediaPipe, NLP (Text Summarization), LLM Integration

Databases: MongoDB, MySQL, SQL

PROJECTS

GitVeritas

(Python, FastAPI, JavaScript)

Web application verifying developer resume claims against GitHub history. [source code](#)

- Architected an asynchronous parsing pipeline in Python/FastAPI that deep-scans up to 20+ repositories concurrently, parsing 5+ file formats and analyzing 1,000+ commits to extract developer footprints in under 8 seconds.
- Engineered a semantic verification engine using SentenceTransformers with a 0.65 similarity threshold, achieving 94% verification accuracy across 15+ tech stacks while slashing false-positive portfolio claims by 85% through commit-weight filters (<2 commits).

Diva

(React.js, Node.js, Express.js, MongoDB)

A web platform empowering women through knowledge and resources. [source code](#) [live demo](#)

- Scaled platform to 500+ users by curating 50+ educational resources, 3 legal support categories, and a secure mentorship forum for women.
- Slashed manual query handling by 80% through an NLP-driven chatbot, reducing average response time and freeing moderators from repetitive support tasks.

KineticLens

(React, JavaScript, MediaPipe, LLM)

Real-time posture correction and personalised fitness planning web application. [source code](#)

- Architected a real-time computer vision pipeline tracking 33 body landmarks across 10+ exercises, reducing posture correction feedback latency to sub-30ms with automated audio-visual coaching alerts.
- Engineered a client-side React/Vite SPA with local database persistence, automating personalized LLM-driven fitness planning, training streaks, and performance analytics.

Mp3by4

(Python, OpenCV, Flask, Google Gemini AI)

Chrome extension that transforms webpage text into a concise video summary. [source code](#) [live demo](#)

- Transformed raw webpage text into HD videos (1280×720, 24 FPS) with 3 character narration styles, achieving 60–80% content compression via Gemini AI summarisation and gTTS text-to-speech.
- Resolved audio-video sync to frame-level precision using MoviePy audio analysis at 44.1kHz and NumPy RMS amplitude calculations, eliminating lip-sync drift entirely.

ACHIEVEMENTS & HACKATHONS

HueMe — CodeCircuit Hackathon (Vite, React.js, Tailwind CSS, Firebase)

May 2025

Mood-tracking web app [source code](#) [live demo](#)

- Shortlisted and secured a paid frontend freelance role directly following a hackathon recognition, demonstrating high-quality UI implementation and clean coding standards within a strict theme-based competition.

College Coding Competition

October 2025

- Selected among 900+ students for exceptional problem-solving and coding proficiency.

POSITION OF RESPONSIBILITY

Nature and Trekking Club

Core Member, Event Management Team

VIT, Bhopal

February 2025 – Present

Volunteer, College Placement Drive

Coordinated logistics and documentation for 200+ candidates and visiting recruitment teams, ensuring a seamless interview process.

VIT, Bhopal

October 2024
